AEROBATICS, CAR SHOW, PANCAKES HIGHLIGHT AIR SHOW *Annual Ramona Event Also Features Fire Fighting Planes, Antique Aircraft, Plane Rides,*

S-2s, T-34's, Pitts and RC Flyers may not be common knowledge to non-aviators, but to aviation enthusiasts they're fun to watch and admire. They are, of course, airplanes and they'll be featured at the Ramona Air Show May 31 and June 1 from 9 a.m. to 4 p.m. at Ramona Airport.

CalFire will fly its aerial attack planes and demonstrate fire fighting from the air, pilots will fly their T-34 trainers in formation and aerobats such as Jaquie Warda and Dr. D will show their prowess. Also featured are the Red Star Pilots association demonstration and Chuck Hall and John Culver's Flying Legends.

Activities kick off each day with a pancake breakfast from 7 to 11 a.m. There will be a vintage car show on Saturday and a "tricked out" big truck show Sunday. Remote controlled aircraft flown by members of the Palomar RC Flyers will soar both days from 2:30 to 4 p.m.

Admission is \$5 per person and military men and women in uniform and children under 12 are free. Parking is \$1 each day.
